

ABSTRACT

Title: Study on Variation of Hazard Rating Determination among Assessors

Name: Daud Bin Adam

Email: daud.adam [at] niosh. com. my

Year: March 2016

Abstract:

Competent assessors are developed to cater the need of the industries as part of requirement of Occupational Safety and Health (Use and Standards of Exposure of Chemicals Hazardous to Health) Regulation 2000 Part IV assessment of risk to health, regulation 9. Whereby chemicals used inside the industries by requirement, end user need to acquire chemical safety data sheet (CSDS) / material safety data sheet (MSDS) upon using the chemicals. Hazard rating determination by competent assessors are using the document of CSDS/MSDS thus this piece of information should up to date of years 5 below, have 16 crucial components as per requirement of CLASS Regulation 2013. Lack of information given and least effort to compare date to latest updated information may lead to wrong determination of hazard rating. This study is socio-demographic study on competent assessors as to whether find the qualification and academic background shows a significant result of hazard determination.
